

“Professor Kryukov made excellent use of the allotted time and covered the material at an excellent pace. He made very good use of the white board and wrote down almost every statement that he made so it was very easy to take good notes. Throughout the presentation he kept the students involved by asking questions and they responded appropriately.”

“Professor Kryukov has a very pleasant demeanor and has created an excellent learning environment in his classes. The students participated freely and it was evident that they were learning the material that was being presented. The material that was presented was very well chosen and organized. I was so much impressed by his classes that I felt like I was watching an expert craftsman at work – it was a very pleasant experience.”

“Professor Kryukov is undoubtedly among the best teachers that I have observed in my thirty years at the Colleges.”
